

GAS SAFETY MANAGER

RGII has been re-appointed, following a public procurement process, by the Commission for Energy Regulation as a Gas Safety Supervisory Body to regulate gas installers in respect of safety in Ireland.

We require a Gas Safety Manager to:

Manage and motivate a team of Inspectors

Oversee the planning and implementation of RGII audit & inspection programmes in conformance with KPI requirements

Contribute to the development of the Criteria for regulation of gas installers with respect to safety

Deal with complaints

Investigate and report on incidents

The Person

Level 6 advanced craft certificate in one of the following – Gas Fitting, Plumbing, Electrician or Refrigeration

G11, 2, 3 and DGA or GIS, GID and DGA or equivalent

Minimum 2 years management experience preferable in auditing & inspections

The Package

An attractive and performance based package will be on offer
