## INFORMATION FOR REGISTERED GAS INSTALLERS (RGI)

The Energy (miscellaneous provisions) Act 2006 Pr.3 S.13 (12) “where a registered gas installer carries out any gas works, the registered gas installer concerned shall issue the appropriate completion certificate to the person who requested the works to be carried out”.

Only a Register Gas Installer (RGI) is permitted to certify his/her own work or that of a Registered (RGI) Trainee under supervision.

All details on this Declaration of Conformance (Cert 2) Boiler Replacement MUST be completed. This is important information as it denotes the Gas Work that was carried out and declares that work was carried out in accordance with the Standard for Domestic Gas Installations (I.S. 813)/I.S. EN 1949 Leisure Accommodation Vehicles.

**\*Annex E I.S. 813 scope of safety inspection (minimum)**

1. Soundness of the installation and connected appliances
2. Visible condition of accessible gas pipework and flexible connections
3. Adequacy of fixed air supply
4. Effectiveness of any flue or chimney
5. Appropriateness of appliance location.
